

GEOM90007

INFORMATION VISUALISATION

Welcome, $\{e://Field/Name\}$ ($\{e://Field/StudentNumber\}$). This is your GEOM90007 individual participation report.

You are required to rate your group members based on their level of participation. This is not an assessment of your group members' academic ability. Rather, you are asked to judge their effort and share of contribution throughout the semester.

Our records show that you are in group $\{e://Field/Group\}$. Please contact Alan Thomas by email if this is incorrect.

Briefly describe the contributions of each group member (including yourself). What parts of the project did they work on?

$\{e://Field/Name\}$

$\{e://Field/Member1\}$

$\{e://Field/Member2\}$

$\{e://Field/Member3\}$

$\{e://Field/Member4\}$

$\{e://Field/Member5\}$

As a percentage of the whole team's work, how much do you believe your group members (including yourself) contributed to the project? Your percentages must add up to 100.

Total

Briefly explain why you gave these percentages. If you believe everyone in your group contributed equally or almost equally, you can leave this box blank. However, if you gave unequal ratings to your group members, you **must** give an explanation.
